**SMVDU faculty bags best paper award in Turkey**

Dr. Sunil Kumar Wanchoo, Assistant Professor in Physics in Shri Mata Vaishno Devi University has bagged the best paper award for his paper, "Superconductor - Ferromagnet bilayers; Experimental investigation of the spin polarized transport across the interface" at Antalya in Turkey.

Dr Wanchoo participated in International Conference on Superconductivity and Magnetism - 2008, organized by Ankara University at its Side campus in Antalya, Turkey between 25-29 August, 2008.

Over 500 delegates from all over the world participated in this conference.

This included scientists from IIT Delhi, Rajasthan University, National Physical Laboratory, Delhi apart from SMVDU, where from Dr. Wanchoo participated.

The main feature of the conference was five parallel sessions which were held during the conference.

Dr. Wanchoo Presented his paper titles "Superconductor - Ferromagnet bilayers; Experimental investigation of the spin polarized transport across the interface"

The paper of Dr Wanchoo was rated among the top four contributions out of over 180 presentation made in his category by scientists/ academicians from all over the world. Paper presented by Dr. Sujeet Chowdhary, Associate Professor, Physics Department, IITD was also selected among the top four publications.

His visit was fully sponsored by Department of Science and Technology, Ministry of Science Technology, Govt., of India and Indian National Science Academy, New Delhi

Dr. Sunil Kumar Wanchoo has been working in SMVDU Since April 2004 and is currently working as Assistant Professor in School of Applied Physics and Mathematics.
