Titiksha 2008

Titiksha, the annual technical festival of SMVDU concluded recently with its usual aplomb and show. The three day tech-fest was inaugurated by the Hon'able Vice-Chancellor Prof. N.K.Bansal on 18 Oct 2008. This festival was initiated to give a boost to the techno-culture of the region and also to give the budding technocrats a platform to test their mettle. These three days were full of events in which various technical colleges and universities participated with full enthusiasm. It provided immense exposure to the students who also got an opportunity to explore their genius and creativity.

The festival was marked by various intra and inter university events like C and C++ programming, JAVA Programming, 8085 Programming, ELECTRONIC HUNT, ROBO WARS, LINUX TROUBLE SHOOTING, COUNTER STRIKE, PRESENTATIONS, RANGOLI, HELICAL COMPLIMENTATION, MIND CONUNDRUMS etc.

From this list one can discern the informal events which were an attraction in themselves for providing the students from different institutions a forum to know each other better, make friends and learn from each other. Thus the three days proved to be pure adrenaline. A special incentive for the students in general and participants in particular was guest lecture by Sun representative Pachleshwar Nayak on "DISTRIBUTED COMPUTING". The valedictory was held on 20 Oct 2008 which was marked by pulsating cultural events, the star attraction being RJ Manas.

It also included the prize distribution ceremony where the prizes were distributed by Madame Bansal, Hon'able Vice Chancellor Prof. Bansal, Dean of Students Prof. R.S. Mishra, and Coordinator Titiksha Mr. Yatheshth Anand.

This gala success was Sponsored by:

JAMKASH VEHICLEHEADS, METIER PHARMACEUTICALS, PLANET GLOBAL, NARMADA STEELS and JK PORTRAIT.
